ST PAUL'S ACADEMY

Summer 2019 Examination Results

St Paul's Academy is pleased to report on the successful and well deserved examination results of our students and we offer them congratulations for all they have achieved.

This academic year has been the second year of the Reformed GCSE grades 9-1 for many of our specifications. These GCSEs cannot be compared to the old ones as they are significantly more rigorous in their content as well as their assessment being mostly examined terminally. Only half of the students nationally who would have achieved an old grade A* will receive a top grade 9 and the difficulty of the new courses mean that more than ever, the lower grades of 1-3 can very much be a reflection of students' hard work and demonstrate their progress and success. The government has made it clear that a grade 4 equates to the old grade C.

We are pleased to announce that 75% of students achieved a grade 4 or above in English and 70% achieved a grade 4 or above in Mathematics. We can report that 64% achieved a grade 4 or above in both English and Mathematics.

There are many other curriculum areas that have achieved very pleasing results, for example in the new and considerably challenging Computer Science GCSE, 72% of students achieved a grade 4 or above, in Religious Studies, 73% of students achieved a grade 4 or above and a commendable 100% of PE students achieved a grade 6 or above. These subjects as well as others such as English and History, have, under the Reformed GCSE seen a huge increase in the course content that students have had to commit to memory. The examinations have been more demanding and many subjects have met these challenges with enormous success.

Results in Science and Geography demonstrate an upward trajectory which again, is extremely positive in this time of significant change to specifications and how they are taught and how students are required to learn. As a truly comprehensive school, we value our vocational pathways, and are very proud of the 100% pass rate in Construction Btec and Sport Btec.

In terms of other performance measures, we would like to report that our English Baccalaureate Average Point Score is 3.87 and the average Attainment 8 for all students is 44.8. The Progress 8 score will be determined and reported later in the Autumn Term. We are awaiting how all measures will compare nationally and locally.

The achievement of all our young people is incredibly important and examination results represent only a part of the holistic development and education of our young people. Our students' motivation and self-esteem have been boosted throughout the year by a variety of interventions and support. The high quality results that have been achieved are testament to

the hard work of the students, the dedication of our staff and the aspirational ethos that is promoted by them and in turn, supported by families.

The staff of St Paul's Academy continue to be committed to doing their very best for all students regardless of ability and in all aspects of the community. The collegiality of staff and students alike is to be celebrated and commended. We would like to offer our heartfelt congratulations to the students in all that they have achieved in the past 5 years at St Paul's and we wish them every possible success as they embark on the next stage of their education.

Congratulations to the Class of 2019!
