Principal: Patrick Winston MBA(Ed), BEd

Teacher of Science

Required from 1st September 2018 (July 2018 start possible)

Salary MPS(including LW)

Roll: 1,200

We seek to appoint a well-qualified, passionate and enthusiastic graduate teacher of Science to join a supportive and motivated department. We welcome applications from both experienced teachers and NQTs.

We offer:

- excellent support for all teaching staff
- opportunities for further professional development
- private healthcare benefits
- breakfast and lunch for all staff in our school restaurant

St Paul's Academy seeks to serve young people from both the Catholic and the local community, welcoming all those who embrace its values and share its quest for excellence:

- To provide opportunities for young people to develop the knowledge, skills and wisdom necessary for effective learning
- To enable learners to develop their intellectual, social, moral, spiritual and physical potential to the full in order to become proactive members of both the local and wider community
- To increase aspirations by exploiting educational innovations and opportunities in the best interests of our students and staff

Last summer 69% of the students achieved Grade 4+ in both English & Mathematics and 48% of the cohort achieved Grade 5+ in both subjects. In 2017 Ofsted reported that we are a Good school where an ***"inclusive approach and attention to pupils' welfare run through all aspects of the school. With support from the senior leadership team, you have ensured that the school continues to be a positive learning environment where pupils are well cared for"***. In the Section 48 Inspection (May 2013), the headline was ***St Paul's is an outstanding school.***

St Paul's Academy is committed to safeguarding and promoting the welfare of children and young people; it expects all members of staff to share this commitment. This post is subject to a Disclosure and Barring Service (DBS) check.

To access the job description for this post and for further details about the school, please visit our website www.stpaulsacademy.org.uk. For an informal discussion, please call Joanne Callow on 020 8311 3868 x157.

Closing date for applications is
Friday, 18th May 2018
Interviews will take place during w/b. Monday, 21st May

ACADEMIES

ST PAUL'S ACADEMY

May 2018

Dear Applicant

Teacher of Science

Thank you for indicating an interest in the above post.

St Paul's Academy seeks to serve young people from both the Catholic and the local community, welcoming all those who embrace its values and share its quest for excellence:

- To provide opportunities for young people to develop the knowledge, skills and wisdom necessary for effective learning
- To enable learners to develop their intellectual, social, moral, spiritual and physical potential to the full in order to become proactive members of both the local and wider community
- To increase aspirations by exploiting educational innovations and opportunities in the best interests of our students and staff

In 1998 we had just 400 students and in 2014 we reached our full capacity of 1,200 students. Moving to a new campus has allowed us to extend our curriculum to meet the needs of every student, from those who find learning a challenge, to the most academically able. We are delighted that the building allows us to welcome students with physical disabilities and that they can be fully integrated in our community. St Paul's Academy offers a longer day than most schools and it welcomes students to use the facilities from 7am in the morning to 5pm in the evening. The Academy is an integral part of the local community; we are involved with many primary schools, especially through sport, and we also see ourselves as part of the global community, particularly through our enterprise activities.

Such is the expertise we have developed at St Paul's, we are now able to share our good practice with other schools. This, of course, hugely benefits schools in a less favourable position than ourselves, but it also greatly benefits our school as many of our staff, particularly the younger ones, gain experience of other institutions whilst our students continue to enjoy their outstanding teaching.

Most importantly, however, our students at St Paul's become part of a community which focuses on young people and is committed to their individual good. The Catholic Church has a very special concern for education which is fundamental to the nature and dignity of human beings and we endeavour to reflect and foster this mission.

At St. Paul's, there a strong emphasis on developing and implementing new approaches to learning so that students of all abilities will be continually motivated and challenged to achieve their full potential. For this to happen we require committed staff who are able to deliver the very latest and the very best practice in teaching and learning strategies.

The successful applicant will be working within the Pure & Applied Sciences Learning Zone.

If you would like to take this opportunity for challenge and reward, and if you feel you have the prerequisite skills, experience and qualities, please do not hesitate to apply.

I look forward to meeting you should your application be successful.

With very best wishes,

Patrick Winston
Principal

ST PAUL'S ACADEMY

51 FINCHALE ROAD, ABBEY WOOD, SE2 9PX

Job Description for: Teacher of Science

Accountable to: Principal and under the day to day leadership of the Subject Leader for Science

Job Purpose: To ensure high quality curriculum provision and effective teaching and learning within the Science curriculum area, in both KS3 and KS4, and to carry out the professional duties of a qualified teacher

Teaching

To design, plan and deliver lessons across both key stages

To work collaboratively with the subject team to plan schemes of learning, assessments and departmental events

To work collaboratively with support staff assigned to teaching groups

To set high expectations for students' behaviour by establishing a good standard of discipline and a purposeful working environment in accordance with the St Paul's Behaviour and Discipline Policy

To establish positive and productive relationships with students

To use data to plan interventions for individuals and groups of students

To reflect on and commit to professional development and improvement of own practice

Assessment and Reporting

To monitor students' classwork and homework

To provide feedback to enable all students to make progress

To assess, record and report on the development, progress and attainment of students

To communicate and consult with parents and carers about students' progress and attainment

Knowledge and Understanding

To have a detailed knowledge of relevant aspects of the National Curriculum

To have a secure subject knowledge in the relevant subject area

To have a clear understanding of current educational issues, theory and practice

Professional Responsibilities

To support the ethos, vision, principles and values of the Academy

To treat colleagues, students and all members of the community, with respect and consideration

To treat all students fairly, consistently and without prejudice

To liaise with partner professionals responsible for students' welfare, care and guidance

To contribute to the school's extra-curricular activities programme

To establish effective working relationships with colleagues

To support the school's responsibility for safeguarding students

To maintain high professional standards of attendance, punctuality, appearance, conduct and positive, courteous relations with students, parents and colleagues.

To engage actively in the performance management process

To support the aims of the Academy through attendance at and participation in events such as Open Day and 'Meet the Tutor'

General Requirements

All teachers take an active role in the Academy's care and guidance of students and may be expected to fulfil the role of form tutor or similar role as determined by the Academy

All teachers may be asked to undertake other reasonable duties related to the job purpose required from time to time
