

St Paul's Academy Careers Fair

On Thursday, 11th October, Year 10 and Year 11 students had the opportunity to attend the St. Paul's Academy Career Fair. The event featured a range of exhibitors, including Sixth Form providers, STEM professionals, and representatives from vocational and apprenticeship companies. Both students and parents had the chance to engage with these experts and explore various post-secondary options.

The event showcased a diverse array of opportunities, including A Level courses, T-Levels, apprenticeships, and pathways into STEM industries. Attendees had the chance to connect with a variety of employers and education providers, such as The London College of Beauty, the Army, and CTK Colleges, as well as representatives from various STEM and vocational sectors. Additionally, we were pleased to welcome back alumni currently studying at Woolwich Poly, CTK St Mary's, and Thomas Tallis, who shared their experiences and insights with current students.

Students engaging with different Post-16 representatives and employers.

St Paul's Academy Careers Fair

Students were able to:

- **Discover Exciting Career Opportunities**
- **Connect with Industry Professionals**
- **Gain Valuable Insights into Diverse Fields**
- **Engage in Interactive Workshops and Presentations**
- **Access College and Career Counseling**
- **Expand Your Network with Key Contacts**

Please see feedback below from students:

What did you like about the Fair?

'The IB diploma information I learnt from Bexley Grammar.'

Did you learn anything today that you will continue to research on your own? If so what?

'I learnt there are many opportunities for me going forward.'

What did you like about the Fair?

'Very informative and widened my eyes to the types of jobs/apprenticeships I have access to.'

Year 10 and 11 benefited from a range of pathways for transition to Sixth Form and apprenticeships.
