

A blue speech bubble graphic with a white outline, pointing downwards. The text is centered within the bubble. The background features faint, overlapping circular lines in grey and blue.

Home Learning: Years 9 & 10

## Taking charge of your learning

- With a term left of 2019/2020 school year, it's vital that we all work together to make this time count even when you aren't physically at school
- We will ensure you have access to high quality tasks and resources so that they can continue to access the curriculum.
- We will ensure you have regular feedback to help you continue to make progress.
- We want you to have regular contact with your teachers to support mental health and well-being.

## How will it work?

- The amount of work you will be set will represent the number of lessons you would normally have a week for a particular subject including homework time.
- Work will be set on the days that the lessons would normally happen but it might not set at the exact time of your normal lesson
- Work will be set on Doddle and labelled with the date of the lesson
- You will need to have access to Doddle wherever you have internet/data (the app on your phone or iPad/logging into the website on a laptop or computer like you do at school)

## Submitting work and getting feedback

- It is important that we try and replicate the way learning works in school as much as we can while when you are at home
- Some work will be submitted while you are at home so you can receive feedback
- Depending on the resources you have, you will submit using an attachment to an email (LGFL)/photograph emailed from your phone/iPad or typing your response into an email to your teacher
- You will receive some individual feedback and some whole class feedback just like you would at school
- You can expect feedback as often as you would receive it at school

## What else?

- You need to ensure you can get onto Doddle and your school LGFL email
- Think about what else you can do at home to support your mental health and physical wellbeing
- Discuss with your form tutor:
- Exercise
- Sleep patterns
- Helping at home
- Who to speak to
- How to maintain contact with friends and loved ones
- How to stay healthy
- What to read, what to watch (and what to limit!)
